**OF BECOMING AND PASSING – CYCLICAL CONCEPTS OF
TIME IN HINDUISM AND BUDDHISM**

3 July 2019, 18:00 - 19:30 PM

The eternal cycle of birth, death, and rebirth marks the concept of time in these religions. Humans and animals as well as the majority of divine beings are subject to this cycle. Present existence is the outcome of our actions in past existences, just as the next life is shaped by the things we do and think today.
