

Grasping anthropology – Talk and performance in the exhibitions

FIGURES – A CROSS-CULTURAL DANCE PROJECT AT THE MUSEUM

8 January 2020, 18:00 - 19:30 PM

Together with professional performers, a group of local and refugee dancers have created especially for the museum a performance installation called FIGURES, under the guidance of the choreographer Mirjam Gurtner. Together, we explore various exhibitions and experience how the dancers enact their bodies between sculpture and dance, between object and subject. We learn more about the dance project's background, see parts of the performance, and get the chance to be very close to the performing bodies.

> With Mirjam Gurtner, artistic director; Pascal Moor, head of production; and the dancers of FIGURES. Host: Sabine Rotach, Learning and Programmes

> In German

Admission fee
