

Performance installation

FIGURES

19 January 2020, 13:00 - 16:00 PM

In the performance installation “FIGURES”, the human body is staged between sculpture and dance, between object and subject, setting the exhibition space in motion and offering new perspectives on museum objects. Amidst the exhibits, the dancers play with our perception of the familiar and the unknown, of the Self and the Other. As moving figures, they act on their surroundings, thus drawing the audience into ever closer encounters.

> With Mirjam Gurtner, artistic director; Pascal Moor, head of production; and the dancers of FIGURES

Admission fee
