

Guided tour

SUN, MOON AND STARS

20 January 2019, 11:00 AM - 12:00 PM

Are celestial bodies gods or stars? Omens or merely phenomena? Every culture and age has its own perception of heavenly bodies, as objects like the statue of the Aztec sun god Tonatiuh or the Indonesian horoscope go to show. The guided tour explores the many ways celestial bodies are understood and put to use, ranging from everyday items to venerated ritual objects.
