IN JAPAN, THE WRAPPING IS PART OF THE GIFT

30 November 2019, 11:00 AM - 16:00 PM

Japanese men and women pay as much attention to a present's wrapping as to the gift itself. We show and explain various knotting and folding techniques with which objects of varying shapes and sizes can be wrapped in style. A gift acquires special meaning if it is wrapped in a furoshiki, a square cloth, instead of paper.
